Polite Request from the Executive Committee: Please do NOT WASTE LANGAR.

Legionella Water Supply Testing

The Executive Committee commissioned an independent, government - approved laboratory to undertake testing of the Gurdwara's water supply of the presence of Legionella bacteria.

The laboratory analysis, as confirmed by the attached certificate of analysis, found that Legionella was NOT detected in any of the samples tested.

The test results therefore provide assurance that the water supply is free from detectable levels of Legionella at the time of testing and is considered safe for use.

Microbiological and Legionella samples that cannot be shown to have been tested within 24 hours and 48 hours respectively of sampling have exceeded accepted stability and the validity of the results may be affected.
Where Matrix is "Not Declared" or the date or time of sampling is not provided, then the validity of the results may be affected.
The laboratory is not responsible for the data provided by the customers. The data provided may affect the validity of the results.

Key: cfu colony forming units
< denotes less than
> denotes greater than
~ estimated value

Comments, opinions, grades and interpretations herein are outside the scope of accreditation. Pass/Fail criteria where shown are based on specifications as agreed with Client or Eurofins general limits and do not take into account measurement of uncertainty, unless stated.

Unless otherwise stated, all results are expressed on a sample as received basis.
This certificate of analysis shall not be reproduced except in full, without the written permission of the laboratory.

Grade Key: 'R' = out of specification, 'A' = Elevated count according to specifications, 'G' = within specification.
